LinkedIn Post:

Alhamdulillah!

By the grace of Almighty ALLAH, I had the honor of attending the 5th class of Python Programming (Quarter-3, Batch-1) at Governor House on Monday, April 07, 2025, under the Governor Sindh Initiative for Gen AI, Web3, and Metaverse.

In this class, we took a deep dive into the world of startups!

Key Takeaways:

⬧ Explored Y Combinator — world's top startup accelerator
⬧ Joined Product Hunt to explore daily trending products
⬧ Watched Stanford's "How to Start a Startup" series on YouTube
⬧ Learned about product-market fit, team building, and startup funding

This session bridged the gap between coding and entrepreneurship — an eye-opener!

Special thanks to our mentors/faculties:

⬧ **Ameen Alam**
⬧ **Asharib Ali**
⬧ **Zia Khan**

Excited to continue this amazing journey toward mastering Python and AI!
